Voice of the Southern Company Council

NEW UNIFORM **UP DATE 3**

Colleagues today we have written to Southern seeking an urgent meeting to discuss the issues you are raising concerning the new uniform.

We have told them that in our opinion they will be unable to meet the role out date of 6th December due to the large amount of ill fitting garments being returned and asked that this date be moved into the New Year to give them time to discuss our dissatisfaction and procure a uniform that is fit for purpose.

Can you please ensure that if you have any issue with the new uniform that you return the affected garments to Southern and then either approach your local representatives or go on line and fill in the form.

Once again we cannot express enough how serious this situation is and it is no good moaning in the mess room about the uniform we need the evidence that the clothing that is not fit for purpose so we can show Southern the evidence that we are not prepared to be issued with a uniform that is not of a high standard and fit for purpose.
